1st December 2020

Hello, my name is Dale Glossenger, and I am the President for the American Football Events Team USA All-Star organization. AFE Team USA is a federally registered public charity nonprofit 501c (3) program and utilizes football as a platform in giving back to the local communities.

AFE (American Football Events) TEAM USA All-Stars will provide an opportunity for players, coaches, and staff to further their football experience beyond the secondary level of minor league and recreational football. We strive to help anyone gain the opportunities to further their careers, through playing all-star games, filming of games, networking, and off field work doing community involvement. This will include holding kid camps, visiting disabled children, adults, nursing homes, etc. "The International language of love is a Warm Smile" ...

Our upcoming event January 13th thru 17th, 2021 and for the 2021 year we will begin our "Care2Share" program. **We are collecting any youth and adult football gear to help with 3rd world country teams.**

Our recent trip in March 2020 to Honduras, to play Women's football touched our hearts as many players had no equipment and had to share old worn out unsafe equipment. To see these young players with love, passion, and determination for an opportunity to play American football was very emotional. Our players after the game donated pads, uniforms, and cleats to the many of the players from Honduras and Costa Rica.

American Football Events "Care2Share" has partnered with Encar Trading Corp. a shipping company that is based in Miami, Florida and will help us in facilitating the shipping of donated equipment and apparel to Honduras.

It is our desire to find the Partnerships, Donations, and help needed for this great program "Care2Share". If you have any questions or comments, feel free to reach out to us at any time.

Sincerely,

Dale Glossenger,
President, American Football Events USA
